

32 Woodland Birds of the Hunter Region

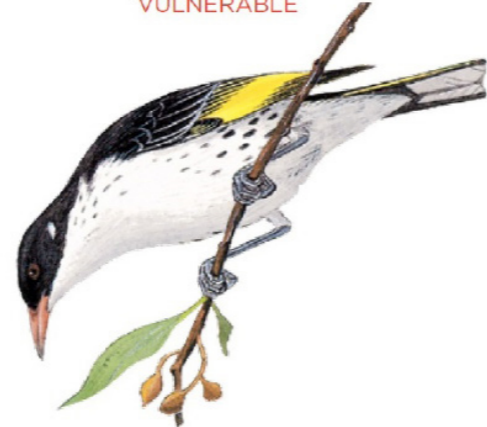

Our woodland birds are in decline. Across eastern Australia **over 50** woodland bird species have been identified for urgent conservation action. In the Hunter Valley and surrounds some of the most important woodlands and forests are known to support 32 of the 50 woodland birds in decline. **Do your bit!** Retain or encourage shrubby understorey, trees, native mistletoe and native grass on your property. Retain dead trees, woody debris and logs. Manage stock access. Protect woodlands and forests from fires and control weeds. Replant clearings with native species and expand habitats.

Protect our woodland birds and their habitats now!

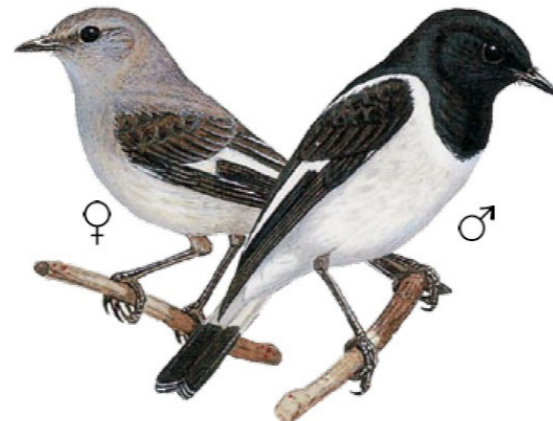

SWIFT PARROT 25cm
Lathamus discolor
Critically Endangered

PAINTED HONEYEATER 15cm
Grantiella picta
VULNERABLE

HOODED ROBIN 16cm
Melanodryas cucullata

TURQUOISE PARROT 22cm
Neophema pulchella

REGENT HONEYEATER 24cm
Anthochaera phrygia
Critically Endangered

BARKING OWL 44cm
Ninox connivens

GANG-GANG COCKATOO 36cm
Callocephalon fimbriatum

SOUTHERN WHITEFACE 10cm
Aphelocephala leucopsis

Report All Sightings: 1800 621 056

BROWN TREECREEPER 18cm
Climacteris picumnus

LITTLE LORIKEET 18cm
Glossopsitta pusilla

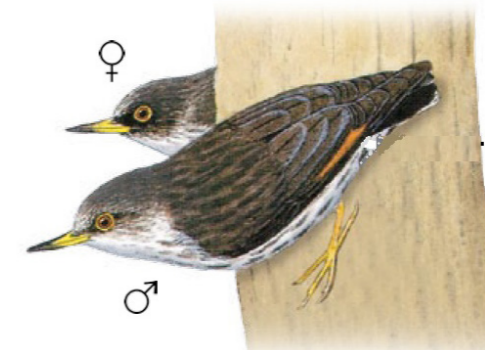

BROWN-HEADED HONEYEATER 14cm
Melithreptus brevirostris

WHITE-BELLIED CUCKOO-SHRIKE 28cm
Coracina papuensis

VARIED SITTELLA 11cm
Daphoenositta chrysoptera

BLACK-CHINNED HONEYEATER 16.5cm
Melithreptus gularis

DUSKY WOODSWALLOW 18cm
Artamus cyanopterus

SPECKLED WARBLER 12.5cm
Chthonicola sagittata

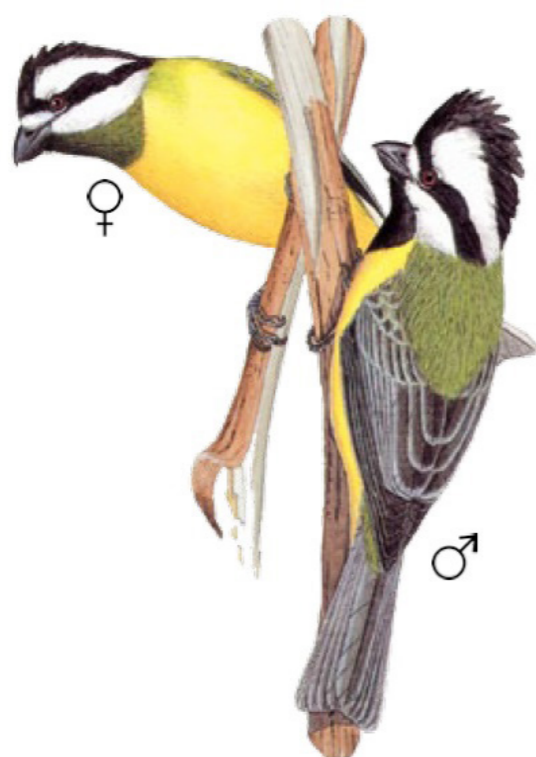

BLUE-FACED HONEYEATER 32.3cm
Entomyzon cyanotis

WESTERN GERYGONE 11.5cm
Gerygone fusca

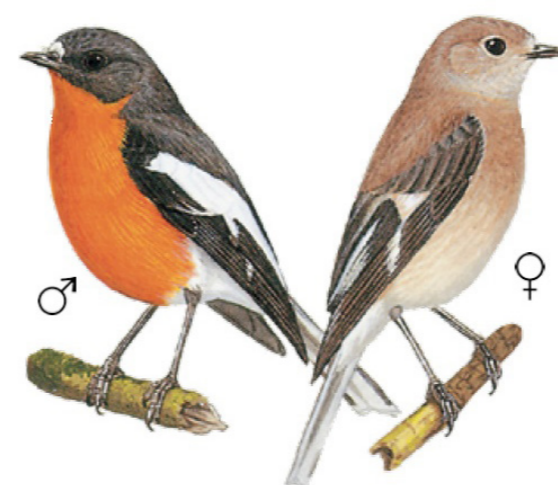

CRESTED SHRIKE-TIT 19cm
Falcunculus frontatus

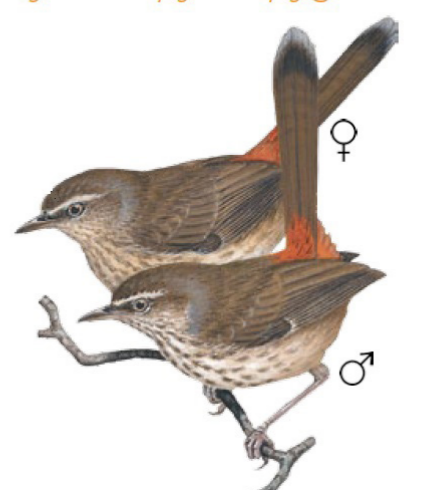

BLACK-EARED CUCKOO 19cm
Chalcites osculans

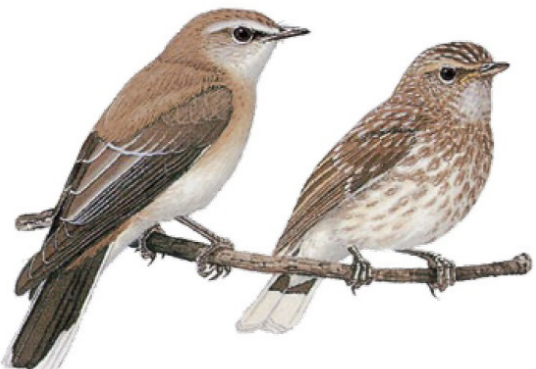

FLAME ROBIN 14cm
Petroica phoenicea

CHESTNUT-RUMPED HEATHWREN 14cm
Hylacola pyrrhopygia

JACKY WINTER 13cm
Microeca fascinans

BUSH STONE-CURLEW 59cm
Burhinus grallarius

DIAMOND FIRETAIL 12cm
Stagonopleura guttata

FUSCOUS HONEYEATER 17cm
Lichenostomus fuscus

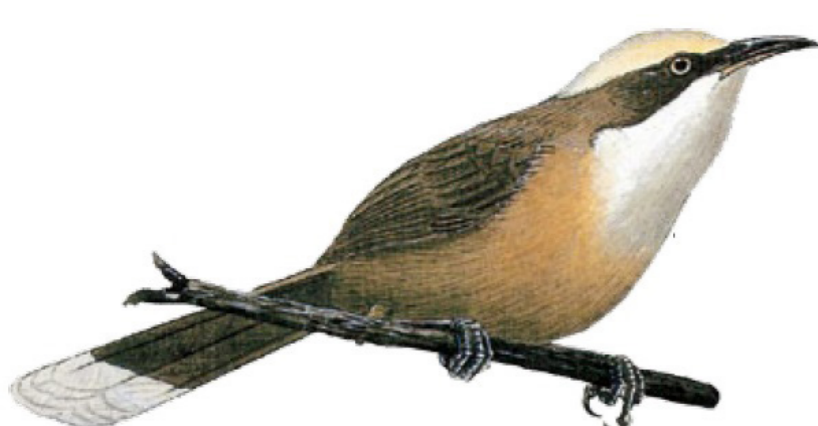

SCARLET ROBIN 13cm
Petroica boodang

RED-CAPPED ROBIN 12cm
Petroica goodenovii

GREY-CROWNED BABBLER 29cm
Pomatostomus temporalis

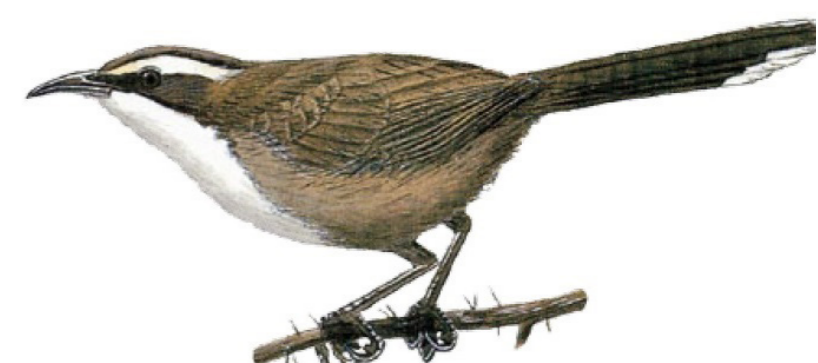

PAINTED BUTTON-QUAIL 16cm
Turnix varius

RESTLESS FLYCATCHER 21.5cm
Myiagra inquieta

WHITE-BROWED BABBLER 22cm
Pomatostomus superciliosus

Supported by Hunter Local Land Services through funding from the Australian Government's National Landcare Program.
